HW300G

300 GALLON PORTABLE HONEYWAGON
WITH GAS ENGINE

sales@ssprocessequipment.com

INNOVATIVE SOLUTIONS

SSPE specializes in water and wastewater treatment products, and fluid handling equipment. With a combined experience of 40+ years, we have developed our HW300G designed for an easy waste removal process at private campgrounds, marinas, and other locations where wastewater or portable waste handling can become costly. We have used the most robust components that are available on the market today. The HW300G is primarily designed to pump out waste from RV's, boats, or any similar locations where capital cost prohibits permanent services for waste removal. Our Honeywagon can quickly transfer any non-explosive liquid such as grease, oil, dirty water, raw sewage, and other general wastewater. We offer both DOT and non-DOT versions.

WE HAVE BUILT THE MOST ROBUST, PORTABLE TRAILER SYSTEM FOR THE EASIEST WASTE REMOVAL!

- 100% portable and easy to maneuver
- 300 Gallon HDPE tank
- Bolted tank fittings, not threaded
- Large mushroom vent w/bug screen
- 3.5 HP Honda engine
- Easy oil drain on pump motor
- Low oil indication warning
- Guaranteed fast pump outs
- Aluminum camlock fittings
- Made in the U.S.A.
- Top rated components & fittings
- Motor and pump are supported by a steel frame
- Robust structured steel frame trailer
- Epoxy painted to last
- Designed for high volume
- Quality connections and camlocks for easy cleaning
- Longer warranty, 2 year for trailer, pump, & tank
- All trailers have wheel fenders and step plates for easy tank access
- Gas and electric motor options are available
- Can easily be towed by a UTV or small garden tractor

CALL 585.582.6307 TO FIND OUT MORE.

* DOT version comes with trailer fenders, step plates, electrical brakes, safety chains, and DOT approved lighting package.

HW300G

300 GALLON PORTABLE HONEYWAGON WITH GAS ENGINE

sales@ssprocessequipment.com

ENGINE - HONDA GX120

- 120cc and 3.5 HP
- Fuel efficient camshaft design offers precise valve timing
- Exceptionally quiet with a multi chamber exhaust system
- Engineered for smooth performance
- Low oil alert
- Heavy duty recoil starter with automatic decompression system
- CARB and EPA certified
- Cast iron cylinder sleeve with high quality materials for proven reliability

DIAPHRAGM PUMP

- Self priming pump
- Durable sand cast aluminum construction
- 2" NPT suction and discharge ports
- Approximate 50GPM and 25TDH
- Maximum solids handling is up to 1-1/4"
- 2 hour run time
- Maximum temperature is 180°F

TANK - 300 GALLON

- Translucent tank for easy level monitoring
- High density linear polyethylene (HDLPE)
- All materials are UV stabilized for long term outdoor use
- Large mushroom vent w/bug screen
- Tank specific gravity is 1.9
- Bolted tank connections w/316SS hardware for durability and rust resistance

TRAILER

- Custom fabricated
- 2" ball coupler
- Single axle
- 3500lb. leaf spring suspension
- ST205/75D14C Tires
- Dry Weight approx. 900lbs.
- Dimensions: 144" x 68" x 64"
- Epoxy painted for durability
- Fenders and step plates included to access easy tank maintenance
- Engine and pump are supported by the trailer frame, no overhung loads
- Rear mounted hose rack
- Utility jack
- DOT versions available

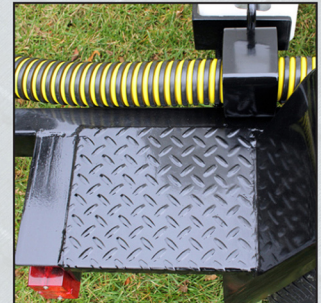

Aluminum quick connect couplings.

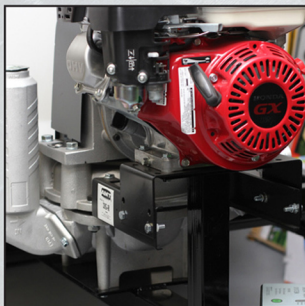

High grade, light weight, flexible hoses.

Mushroom vent with bug screen for better ventilation.

All trailers have custom fenders and steps for easy tank maintenance.

Engine and pump are supported by trailer frame.

Bolted tank connections w/316SS hardware instead of threaded fittings.

High density linear polyethylene (HDLPE) tank with custom fabricated durable trailer. Easily towed to where you need it.
